sound installation

sound system, CD player, CD

40', loop

2004-2008

Del Paese e altre storie, Palazzo Ducale, Genoa, 2008

The sound installation proposes a collection of sound clips taken from the radio programme Catechesi Giovanile ("Catechesis for the youth").

The radio programme is broadcast every Friday evening on Radio Maria, the catholic community radio station devoted to the profession of the faith and, in particular, to the veneration of the Virgin.

At the end of the program all the people attending the lesson, one by one, send regards to their dear ones.

The work takes shape as an endless "goodbye" made by the maximum amount of people to many potential listeners. At the same time it represents a sound portrait of the much-discussed radio community.

Two loudspeakers mounted on stands play into a clear and empty room, half lighted. The track is played in a loop.
